TROLLEY TOOL BACKPACK WITH HARD BASE 48L

Overview

Tool backpack with a capacity of 48 liters, with reinforced, waterproof bottom, combines the functionality of a classic backpack with the mobility of a transport bag, making it suitable for both field work and organizing tools in the workshop. The construction based on durable technical polyester 600D ensures resistance to abrasion, moisture, and daily loads, making it a practical equipment for professionals seeking solid and easy-to-maintain gear. Two wheels and a telescopic, retractable handle at the top are used in the base, allowing for quick transformation of the backpack into a convenient transport suitcase. This solution relieves the spine when carrying a heavier set of tools. Wide, adjustable carrying straps ensure comfort when carrying in the traditional way, evenly distributing the weight even when fully loaded. The wide handle allows for comfortable and ergonomic carrying of the backpack in hand. Dimensions of 37 x 23 x 57 cm provide space for safe placement of power tools, accessories, and small mounting elements. A stable construction with partitions, hooks, and closed pockets helps maintain order and protects equipment from damage during transport. This is a universal solution for installers, service technicians, and DIY enthusiasts who expect a combination of durability, comfort, and practical mobility during safe and organized tool transport. Main features and functions: 48 l capacity allows for transporting a set of tools and accessories needed in daily work durable technical polyester 600D increases resistance to abrasion, moisture, and damage reinforced bottom made of PP maintains resistance to water and mechanical factors wide, adjustable carrying straps ensure comfort when carrying on the back possibility of detaching straps allows for quick transformation of the backpack into a convenient suitcase for carrying in hand or pulling on wheels 2 transport wheels allow for comfortable transport of heavier loads without burdening the back telescopic, retractable handle allows for using the backpack as a suitcase on wheels stable construction with separate pockets promotes safe storage and protects the contents during transport dimensions of 37 x 23 x 57 cm offer space for hand tools, power tools, and small mounting elements

Key Technical Specifications

Grip	extendable
Brand	Yato
Symbol	YT-74288
Wheels	yes
Capacity	48 l
Material	OXFORD 600D polyester
Dimensions	370x230x570 mm
Producer code	5906083125256
Wheel quantity	2
Transportation holder	yes

Key Points

- 48 l capacity allows for transporting a set of tools and accessories needed in daily work
- durable technical polyester 600D increases resistance to abrasion, moisture, and damage
- reinforced bottom made of PP maintains resistance to water and mechanical factors
- wide, adjustable carrying straps ensure comfort when carrying on the back
- possibility of detaching straps allows for quick transformation of the backpack into a convenient suitcase for carrying in hand or pulling on wheels
- 2 transport wheels allow for comfortable transport of heavier loads without burdening the back
- telescopic, retractable handle allows for using the backpack as a suitcase on wheels
- stable construction with separate pockets promotes safe storage and protects the contents during transport
- dimensions of 37 x 23 x 57 cm offer space for hand tools, power tools, and small mounting elements
