EXPERT MATI 68 RD4 Corner Blade

Short Description

Bosch EXPERT MATI 68 RD4 StarlockMax diamond corner blade for removing grout and cutting abrasive materials in corners and difficult-to-access areas.

Technical Specifications

Brand	Bosch
Model	MATI 68 RD4
Mfr part no.	2608900036
SKU	817364
Type	StarlockMax diamond corner blade for oscillating multitools
Dimensions	68 x 30 x 2.2 mm
Working Depth	30 mm
Cutting Width	2.2 mm
Grit	40
Material	Diamond
Arbor Size	StarlockMax
Compatible Materials	Grout, abrasive material, aerated concrete, soft bricks, wall tiles, cement fibreboards and composite materials
Application	Removing tile joints near edges, corners and fittings; cutting recesses in hard abrasive materials
Pack Quantity	1 piece

Description

The diamond-coated blade is designed for oscillating multitools. Its pointed semi-segment profile is intended for precise work close to edges, corners and fittings. It is suitable for removing

regular-thickness grout and cutting abrasive materials including soft tiles, fibre cement boards and composite materials.

Key Features

- StarlockMax mounting system
- Diamond-coated cutting edge
- Pointed corner-blade profile for precise work in corners
- Designed for regular-thickness grout of approximately 2.3 mm and larger
- Suitable for grout, mortar, abrasive materials and soft tiles
- Bosch states up to 5x longer life versus the ACZ 85 MT4 laser-melted carbide blade on the current successor product page

Applications

- Removing grout between tiles
- Removing tile joints close to edges and corners
- Working around fittings
- Cutting recesses in soft tiles
- Cutting cement fibreboards
- Cutting fibreglass-reinforced composite materials
- Cutting abrasive materials with an oscillating multitool

What's Included

- 1 x Bosch EXPERT MATI 68 RD4 diamond corner blade
