

Yato | Code YT-44746 | Sku 1044746

Step Drill 10-30mm

Overview

YATO brand step drill YT-44746. Designed for drilling in high-grade stainless, structural and cold-rolled steel, non-ferrous metals, steel sheets and plastics. Made of HSS 4241 high-speed steel, coated with titanium nitride to increase the life of the drill bits. Drilled hole edges remain clean and burr-free. Automatic centering on rounded and slippery surfaces. Fast heat dissipation when drilling in hard materials. 2 spiral chip grooves efficiently dissipate spoils. Shank with 3 flat surfaces gives you the ability to transfer maximum torque.

Key Technical Specifications

Brand	Yato
Length	87 mm
Symbol	YT-44746
Diameter	10, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30 mm
Material	HSS 4241
Application	high-quality stainless steel, structural steel, cold rolled steel, non-ferrous metals, steel sheets, plastic
Producer code	5906083054068
Step quantity	12
Finish	coated with titanium nitride
Working length	60 mm
Toolholder type	triangle
Max. cutting capacity	4 mm

Key Points

- Made of HSS 4241 high-speed steel, coated with titanium nitride to increase drill bit life
- Drilled hole edges remain clean and burr-free
- Automatic centering on rounded and slippery surfaces
- Fast heat dissipation when drilling in hard materials
- 2 spiral chip grooves efficiently dissipate spoils
- Shank with 3 flat surfaces enables maximum torque transfer
- 12 steps covering diameters from 10 to 30 mm
- Triangular shank

Warnings

- Warning! Always use personal safety equipment at work.
