

Yato | Code YT-81953 | Sku 1081953

BURNISHING MACHINE 1300W

Overview

Professional metal and wood sanding Discover the YT-81953 satinizer, a reliable tool for precise sanding of metal and wood with a performance of 1300 W. It will easily remove old rust coatings, paints, providing a perfect finish without damaging the material. Fast and safe surface renovation Effectively removes paint coatings (varnishes, paints, stains) Eliminates rust without damaging the material Much faster work than with an angle grinder or wire brush Symmetrical pressure and uniform removal thanks to the central position of the roller Motor and gearbox resistant to heavy loads Recommended for cleaning terrace and floor boards Ideal for removing rust and bitumens from boat hulls Works well in welding car chassis constructions Excellent for renovating terraces and aging wood Power 1300 W Adjustable speed Fast surface processing Durable construction Removes paints and varnishes Key technical parameters: Power: 1300 W Adjustable speed: 900-3700 rpm Weight: 5 kg Brush diameter: 120 mm Brush width: 100 mm Dust extraction system: Yes Complete set and detailed data: Set contents: satinizer, additional handle, metal brush, nylon brush Voltage: 230 V Frequency: 50 Hz Cable length: 3 m Protection class: IP20 Electrical insulation class: II Electronically adjustable rotational speed: Yes Acoustic pressure: 88.0 ± 3.0 dB Acoustic power: 99.0 ± 3.0 dB Vibrations: 8.85 ± 1.5 m/s² Brush mounting diameter: 19 mm

Key Technical Specifications

Brand	Yato
Power	1300 W
Symbol	YT-81953
Weight	5 kg
Voltage	230 V a.c.
Frequency	50 Hz
Rotations	900-3700 min ¹
Vibrations	8.85 ± 1.5 m/s ²

Application	for processing wooden or metal surfaces, for cleaning surfaces from paint coatings, for smoothing the surface
Brush width	100 mm
Wire length	3 m
Set includes	satin finisher, additional handle, metal brush, nylon brush
Producer code	5906083082283
Acoustic power	99.0 ± 3.0 dB(A)
Brush diameter	120 mm
Compatible with	YT-81954, YT-81955, YT-81957, YT-81958
Protection grade	IP20
Acoustic pressure	88.0 ± 3.0 dB(A)
Brush assembly diameter	19 mm
Electric insulation class	II
Vacuum self suction system	yes
Electronic rotation adjustment	yes

Key Points

- Effectively removes paint coatings (varnishes, paints, stains)
- Eliminates rust without damaging the material
- Much faster work than with an angle grinder or wire brush
- Symmetrical pressure and uniform removal thanks to the central position of the roller
- Motor and gearbox resistant to heavy loads
- Recommended for cleaning terrace and floor boards
- Ideal for removing rust and bitumens from boat hulls
- Works well in welding car chassis constructions
- Excellent for renovating terraces and aging wood
- Power: 1300 W
- Adjustable speed: 900-3700 rpm
- Weight: 5 kg
- Brush diameter: 120 mm
- Brush width: 100 mm
- Dust extraction system: Yes
- Set contents: satinizer, additional handle, metal brush, nylon brush
- Voltage: 230 V
- Frequency: 50 Hz
- Cable length: 3 m
- Protection class: IP20
- Electrical insulation class: II
- Electronically adjustable rotational speed: Yes
- Acoustic pressure: 88.0 ± 3.0 dB
- Acoustic power: 99.0 ± 3.0 dB

-
- Vibrations: $8.85 \pm 1.5 \text{ m/s}^2$
 - Brush mounting diameter: 19 mm
