

Yato | Code YT-84927 | Sku 1084927

CHAINSAW GUIDE BAR 3/8" / 0.05" 12"

Overview

YATO YT-84927 chain guide bar for chainsaws. Length 12", 44 links, pitch 3/8", width 0.05" (1.3 mm). It is made of Mn65 manganese steel, which significantly increases the guide bar's resistance to abrasion and overheating, extending its service life. The star end is fastened with 4 rivets, ensuring the highest precision of installation and increasing the strength of the guide bar. In addition, the star end has a roller bearing, which guarantees precise chain guidance, minimizing drag during operation. YATO guide bars have a special lubrication system with an oil reservoir, from which the chain collects oil and distributes it evenly along the entire length of the guide bar. This reduces operating resistance and increases cooling, greatly extending the life of the entire cutting system. YATO guide bars are designed for home and professional use. They are dedicated to work around the house and in the garden. They are also successfully suitable for tree felling work. It is suggested to use the guide bars with YATO chains YT-84949 or YT-84960. It is also possible to use them with chains from other manufacturers. Usage warnings: Warning! Always use personal protective equipment at work.

Key Technical Specifications

Brand	Yato
Symbol	YT-84927
Bearing	yes
Material	steel 65Mn
For chains	YT-84949, YT-849495, YT-84960
Chain pitch	3/8" (9.52 mm)
Bearing type	roller
For chainsaws	YT-85090, YT-828137, YT-828138
Mounting type	P
Producer code	5906083040177
Links quantity	44

Number of teeth	9
Rivets quantity	4
Guide bar length	12" (300 mm)
Guide link length	0.05" (1.3 mm)
Guide bar thickness	0.322" (8.2 mm)
Automatic chain lubrication	yes

Key Points

- Made of Mn65 manganese steel for increased resistance to abrasion and overheating
- 12" length, 44 links, 3/8" pitch, 0.05" (1.3 mm) width
- Star end fastened with 4 rivets for precise installation and greater strength
- Roller bearing at the star end for precise chain guidance and minimal drag
- Special lubrication system with oil reservoir for even oil distribution
- Suitable for home and professional use, including tree felling
- Recommended for use with YATO chains YT-84949 or YT-84960

Warnings

- Warning! Always use personal protective equipment at work.
