RIGHT ANGLE SPIRIT LEVEL 400X300MM

Overview

The aluminum square is a precise measuring tool designed for marking and checking right angles in construction, assembly, and carpentry work. Its lightweight yet rigid construction ensures comfortable handling and high measurement accuracy. The use of four spirit levels allows for level and plumb checks in various positions, enhancing the tool's functionality during daily tasks. Key product features: Measurement accuracy of 0.027° (0.5 mm/m) ensures precise angle marking and surface control 4 spirit levels enable readings in vertical, horizontal, and other working positions Aluminum construction combines low weight with high rigidity and resistance to deformation Clear markings and readable indicators facilitate quick and accurate measurement readings Stable arms of the square ensure secure adherence to surfaces and precise measurement guidance Universal application is suitable for construction, carpentry, and assembly work Available sizes: YT-70744 – 300 x 400 mm YT-70745 – 300 x 500 mm YT-70746 – 400 x 600 mm YT-70747 – 500 x 800 mm YT-70748 – 500 x 1000 mm YT-70749 – 600 x 1200 mm Precise workmanship and a variety of sizes allow for the selection of the appropriate model for the scope of work, ensuring comfort and accuracy in measurements under any conditions.

Key Technical Specifications

Grip	no
Brand	Yato
Laser	no
Vials	4
Magnet	no
Symbol	YT-70744
Material	aluminum
Thickness	1.35-1.4 mm
Producer code	5906083128936
Finish	surfaced

Spirit level accuracy

0.5 mm/m = 0.027

Key Points

- Measurement accuracy of 0.027° (0.5 mm/m) ensures precise angle marking and surface control
- 4 spirit levels enable readings in vertical, horizontal, and other working positions
- Aluminum construction combines low weight with high rigidity and resistance to deformation
- Clear markings and readable indicators facilitate quick and accurate measurement readings
- Stable arms of the square ensure secure adherence to surfaces and precise measurement guidance
- Universal application is suitable for construction, carpentry, and assembly work
- YT-70744 – 300 x 400 mm
- YT-70745 – 300 x 500 mm
- YT-70746 – 400 x 600 mm
- YT-70747 – 500 x 800 mm
- YT-70748 – 500 x 1000 mm
- YT-70749 – 600 x 1200 mm
