OSCILLATING MULTITOOL 400W

Overview

The multifunctional oscillating tool YT-82221 is a practical solution for renovation, assembly, and workshop tasks where precision and versatility are essential. Thanks to oscillation technology, it allows for precise cutting, sanding, and material removal without the risk of damaging the work surface. It performs well for both minor adjustments and more demanding tasks where standard power tools do not provide adequate control. Particularly useful in corners and hard-to-reach areas. This 400 W device has been designed for stable operation under load and convenient handling. Speed adjustment allows you to tailor the parameters to the specific material – from wood and plastics to metal components. The high power ensures that the blade does not jam and continues to operate under heavy load. The tool also features a soft start system. Most closed blades available on the market can be used with the quick-release head of the multi-sander. Key features and functions: multifunctional use: cutting, plunge cutting, sanding, removing grout and coatings; precise work without splintering thanks to oscillating movement and high-frequency vibrations; speed adjustment enabling adaptation to the type of material; effective cutting of wood, AC5 panels, PVC, MDF, aluminum, steel, and plexiglass; capability to work in hard-to-reach places; ergonomic handle improving control and user comfort; quick attachment of accessories; easy and very safe operation. Applications: cutting holes in furniture boards, panels, and sheets; trimming doors and cutting baseboards; cutting metal, nails, and screws; sanding wood and preparing surfaces for painting; removing grout, adhesives, plasters, and paints; restoration work on windows, doors, and furniture; cutting wall ceramics. Technical specifications: power: 400 W; rotational speed: 10000-20000 min⁻¹; oscillation angle: 4 degrees; protection class: IP20; power cord length: 3 m; weight: 1.5 kg

Key Technical Specifications

Brand	Yato
Power	400 W
Symbol	YT-82221

Weight	1.5 kg
Voltage	220-240 V a.c.
Frequency	50 Hz
Rotations	10000-20000 min ⁻¹
Vibrations	3.03 ± 1.5 m/s ²
Application	cutting, recessed cutting, scratching, grinding
Wire length	3 m
Set includes	multifunctional oscillating tool, scraper, plunge saw blade, sanding pad, sandpaper x2
Producer code	5906083122934
Quick release	yes
Acoustic power	92.0 ± 3.0 dB(A)
Rotation switch	no
Protection grade	IP20
Acoustic pressure	84.0 ± 3.0 dB(A)
Oscillating angle	4
Work area lighting	no
Electric insulation class	II
Electronic rotation adjustment	yes

Key Points

- multifunctional use: cutting, plunge cutting, sanding, removing grout and coatings
- precise work without splintering thanks to oscillating movement and high-frequency vibrations
- speed adjustment enabling adaptation to the type of material
- effective cutting of wood, AC5 panels, PVC, MDF, aluminum, steel, and plexiglass
- capability to work in hard-to-reach places
- ergonomic handle improving control and user comfort
- quick attachment of accessories
- easy and very safe operation
- cutting holes in furniture boards, panels, and sheets
- trimming doors and cutting baseboards
- cutting metal, nails, and screws
- sanding wood and preparing surfaces for painting
- removing grout, adhesives, plasters, and paints
- restoration work on windows, doors, and furniture
- cutting wall ceramics
- power: 400 W
- rotational speed: 10000-20000 min⁻¹
- oscillation angle: 4 degrees
- protection class: IP20
- power cord length: 3 m

-
- weight: 1.5 kg
