## TORCH 18V (BODY; 6000LM)

### Overview

The YATO 18 V rechargeable flashlight is a mobile light source designed for illuminating workstations, technical interiors, and assembly areas. The battery power eliminates the need for cords, increasing freedom of movement in the workshop, on construction sites, and during service work. The design features two LED panels – one on the top and one on the side – allowing for the adjustment of lighting according to the nature of the tasks performed. The adjustable arm with a range of 180° and the side rotation of the spotlight up to 270° enable precise direction setting of the light, reducing shadow formation and improving work comfort. The luminous flux of 6000 lm provides intense and even illumination over a larger working area while maintaining low power consumption. Features and technical specifications: power supply: YATO 18 V battery system (Li-Ion) luminous flux: 6000 lm power: 7.4 W light source: efficient LED diodes (top and side panel) 3 spotlight modes: bright, medium, low, and flashlight mode arm adjustment range: 180° side rotation of the spotlight: 270° protection rating: IP20 weight: 0.3 kg additional features: ergonomic handle and hook for hanging Power supply – compatible YATO 18 V Li-Ion batteries: YT-828461 - 2 Ah YT-828462 - 3 Ah YT-828463 - 4 Ah YT-828464 - 6 Ah YT-828465 - 9 Ah Usage warnings: Warning. Eye hazard. Do not aim a beam to the eyes! It may cause a serious sight problems.

### Key Technical Specifications

|              |           |
|--------------|-----------|
| Hook         | yes       |
| Type         | POWER LED |
| Brand        | Yato      |
| Power        | 7.4 W     |
| Symbol       | YT-829693 |
| Weight       | 0.3 kg    |
| Rotary head  | yes       |
| Battery type | Li-Ion    |

|                         |                                                   |
|-------------------------|---------------------------------------------------|
| <b>Hook quantity</b>    | 1                                                 |
| <b>Luminous flux</b>    | 6000 lm                                           |
| <b>Producer code</b>    | 5906083116209                                     |
| <b>Lighting modes</b>   | 3: flashlight, bright mode, medium mode, low mode |
| <b>Battery voltage</b>  | 18 V d.c.                                         |
| <b>Operation angle</b>  | 180 (arm), 270 (side tilt of the light)           |
| <b>Battery quantity</b> | none                                              |
| <b>Charger included</b> | no                                                |
| <b>Protection grade</b> | IP20                                              |

## Key Points

- Power supply: YATO 18 V battery system (Li-Ion)
- Luminous flux: 6000 lm
- Power: 7.4 W
- Light source: efficient LED diodes (top and side panel)
- 3 spotlight modes: bright, medium, low, and flashlight mode
- Arm adjustment range: 180°
- Side rotation of the spotlight: 270°
- Protection rating: IP20
- Weight: 0.3 kg
- Ergonomic handle and hook for hanging
- Compatible battery YT-828461 - 2 Ah
- Compatible battery YT-828462 - 3 Ah
- Compatible battery YT-828463 - 4 Ah
- Compatible battery YT-828464 - 6 Ah
- Compatible battery YT-828465 - 9 Ah

## Warnings

- Warning. Eye hazard. Do not aim a beam to the eyes! It may cause serious sight problems.
- Battery not included.
- Charger not included.
