5PCS SET OF GLUE STICKS 11,2X200M GREEN

Overview

Description Universal green colored hot melt adhesive with a diameter of 11mm and a length of 200mm. Technical parameters: operating temperature: from 170 to 200°C melt temperature: 85°C (+/- 2°C) bonding time: 20-30 seconds opening time: 20-30 seconds binding strength: 6000 mpas (+/- 1000 mpas) Purpose adhesive is ideal for bonding various types of materials, including: paper and cardboard plastics, including PVC insulation. fabrics leather wood It is designed for professional applications such as: fastening of electric wires packaging production floristics handicrafts furniture and upholstery motoring electronics A unit package contains 5pcs of adhesive.

Key Technical Specifications

Pcs	5
Brand	Yato
Color	green
Length	200 mm
Symbol	YT-82436
Weight	0.1 kg
Diameter	11 mm
Open time	20-30 s
Application	cardboard, wood, plastic, leather, fabrics
Melting time	20-30 s
Producer code	5906083023774
Softening point	85 ± 2 C
Melting viscosity	6000 ± 1000 MPas
Working temperature range	170~200 C

Key Points

- operating temperature: from 170 to 200°C
- melt temperature: 85°C (+/- 2°C)
- bonding time: 20-30 seconds
- opening time: 20-30 seconds
- binding strength: 6000 mpas (+/- 1000 mpas)
- paper and cardboard
- plastics, including PVC insulation
- fabrics
- leather
- wood
- fastening of electric wires
- packaging production
- floristics
- handicrafts
- furniture and upholstery
- motoring
- electronics
