CAULKING GUN 18V - BODY

Overview

18 V Li-Ion Battery-Powered Gun designed for applying adhesives and sealants. Recommended for service, construction, and finishing work. The absence of a cable allows for operation in any location. Features: precise dosing of the extruded material with no waste more efficient and faster extrusion than with manual tools automatic piston retraction mechanism prevents material loss and accidental surface contamination metal base and steel piston battery allows for long continuous operation on a single charge compatible with all standard cartridges available on the market with a diameter of 52 mm and a maximum length of 240 mm (silicones, mounting adhesives, chemical anchors, acrylics, sealants) replacement batteries available in capacities: 2 Ah (YT-828461), 3 Ah (YT-828462), 4 Ah (YT-828463) and 6 Ah (YT-828464) Body version - without battery and charger. Available accessories can be found [here](#). 18 V SYSTEM 18 V System is a series of battery-powered tools from YATO, powered by the same durable battery. You can purchase devices in a set with a battery and fast charger or solo, which is an ideal solution when expanding your tool collection. Battery power gives you freedom and greater comfort while working. Additionally, YATO battery tools are durable, handy, and perfectly balanced, making them a pleasure to use. Professionalism Power, modernity, refined solutions – all this is offered in the 18 V series of devices, created for the most demanding users and professionals. Economy There is no need to buy multiple batteries and chargers for additional tools. With the 18 V system, you save money, space in your home, and the environment! Choice As your requirements grow, so does the 18 V collection. A wide selection of tools for home, workshop, and garden allows you to create the set you really need.

Key Technical Specifications

Brand	Yato
Symbol	YT-82889
Weight	1.3 kg
Voltage	18 V d.c.
Vibrations	1.68 ± 1.5 m/s ²

Tube length	225 mm
Battery type	Li-Ion
Producer code	5906083050510
Tube capacity	300 ml
Tube diameter	48 mm
Acoustic power	91.0 ± 3.0 dB(A)
Battery quantity	none
Charger included	no
Protection grade	IPX0
Acoustic pressure	80.0 ± 3.0 dB(A)
Piston movement speed	0.5-8 mm/s
Piston pressure force	2000 N
Electric insulation class	III

Key Points

- Precise dosing of the extruded material with no waste
- More efficient and faster extrusion than with manual tools
- Automatic piston retraction mechanism prevents material loss and accidental surface contamination
- Metal base and steel piston
- Battery allows for long continuous operation on a single charge
- Compatible with all standard cartridges with a diameter of 52 mm and a maximum length of 240 mm (silicones, mounting adhesives, chemical anchors, acrylics, sealants)
- Piston pressure force of 2000 N
- Body version - supplied without battery and charger
- Part of the YATO 18 V system, powered by the same battery shared across the tool range
