## Wiha Mini Spirit Level Pocket

### Key Technical Specifications

|                             |                                  |
|-----------------------------|----------------------------------|
| Horizontal Accuracy         | $\leq 0.75 \text{ mm/m}$         |
| Vertical Accuracy           | $1.0 \text{ mm/m}$               |
| Bubbles                     | 2 (vertical + horizontal 4-ring) |
| Gradient Capability         | 2 %                              |
| Centering Point Distance    | 60 mm                            |
| Screwdriver Holder Diameter | 7 mm                             |

### Features

- Vertical and horizontal measuring function
- 4-ring bubble for precise 2 % gradients
- Standardized 60 mm centering points for flush-mounted boxes
- Groove on bottom for wall switch box device screws
- Two strong magnets for metallic power sockets
- Cutout for direct socket fastening without removing the level
- Removable belt clip
- Integrated screwdriver holding function

### Applications

- Installing power sockets
- Calibrating flush-mounted boxes
- Calibrating electrical wall switch boxes
- Precision work overhead and in confined spaces

### Compatibility

- Wiha SoftFinish electric slimFix slotted 3.5 mm screwdriver
- Wiha SoftFinish electric slimFix PH1 screwdriver
