## Description

The GPO 11-180 S is a corded polisher designed for polishing and sanding metal and painted surfaces, including vehicle surfaces. It provides 1,100 W of rated input power, adjustable speed from 900 to 3,800 rpm, and accepts polishing accessories up to 180 mm. The GHG 180 is a corded three-stage heat gun with 1,800 W input power, 60–550 °C working temperature, and 350–550 l/min airflow. The exact retail listing is a Speedex bundle of these two individual Bosch Professional products; no Bosch manufacturer bundle part number was identified.

## Key Features

- Includes Bosch Professional GPO 11-180 S polisher and GHG 180 heat gun
- GHG 180 includes overheat protection
- Both tools are corded Bosch Professional models
- GPO 11-180 S has an adjustable no-load speed range of 900–3,800 rpm

## Applications

- Polishing painted vehicle surfaces
- Removing scratches from vehicle surfaces
- Polishing and sanding metal surfaces
- Industrial metal surface finishing
- Stripping paint and varnish
- Shaping and forming materials with hot air
- Shrinking and loosening applications requiring hot air

## What's Included

- Bosch Professional GPO 11-180 S polisher
- Auxiliary handle for GPO 11-180 S
- 180 mm polishing sponge
- 180 mm M14 rubber backing pad
- Bosch Professional GHG 180 heat gun
