ROLLER CABINET 20 DRAWERS

Overview

Professional Work Organization The professional service cabinet YT-09006 has been designed for automotive workshops, maintenance departments, technical services, and anywhere efficient organization of tools and equipment is crucial. A large number of drawers with varying dimensions allows for convenient sorting of hand tools, accessories, spare parts, and consumables, facilitating the maintenance of order at the workstation. The robust steel construction is equipped with a durable rubberwood top that can serve as an additional workspace. Ball-bearing slides ensure smooth drawer operation even under heavy loads, while the central locking system effectively secures the stored equipment. Thanks to the large wheels with a diameter of 150 mm, the cabinet maintains mobility even in demanding workshop conditions and when fully loaded.

20 Drawers Rubberwood Top Smooth Drawer Movement Mobile Construction Central Locking Overall dimensions: 1425 x 575 x 1095 mm

20 drawers of varying capacities Ball-bearing slides ensuring smooth drawer operation Automatic drawer closing system Individual drawer locks and central lock 2 keys included Worktop made of durable rubberwood Universal perforation for mounting workshop accessories Corner bumpers protecting the cabinet and surroundings from damage Mobile construction equipped with 6 wheels with a diameter of 150 mm: 2 fixed wheels, 2 swivel 360° wheels, and 2 swivel wheels with brakes
