DRILL CHUCK 13MM

Overview

Self-locking drill chuck with SDS-Plus adapter with key ensures perfect drilling centrality and optimal force transmission when working with a drill or hammer drill. It guarantees a secure, stable grip on drill bits, even under heavy loads. The use of the key increases the clamping force, reducing the risk of the tool slipping during work. mounting: 1/2" (12.7 mm) 20UNF thread tool holder size: 1.5-13 mm material: high-quality carbon steel, very durable and resistant to mechanical wear adapter material: durable Cr40 steel excellent centrality of work and stable drill holding drill key included in the set

Key Technical Specifications

Material	#45 carbon steel, nylon
Holder size	1.5-13 mm
Thread size	G1/2 20UNF
Toolholder type	SDS-Plus
Adapter material	40Cr

Key Points

- mounting: 1/2" (12.7 mm) 20UNF thread
- tool holder size: 1.5-13 mm
- material: high-quality carbon steel, very durable and resistant to mechanical wear
- adapter material: durable Cr40 steel
- excellent centrality of work and stable drill holding
- drill key included in the set
