|-------------------------------------------|--------------|
| <b>Operating Temperature</b>              | -10 to 45 °C |
| <b>Storage Temperature</b>                | -20 to 70 °C |
| <b>Manufacturer Identification Number</b> | 3601K66P00   |

## Description

The Bosch Professional PRO GPL 5 G is a durable 5-point laser designed for setting out 90-degree walls, transferring points from floor to ceiling, plumbing and constructing drywall frames. It provides automatic self-levelling, a magnetic rotating mount and protection against dust and water jets.

## Key Features

- Five highly visible green laser points
- Rubberised housing with recessed glass
- Integrated magnetic rotating mount
- Two-position switch with pendulum lock
- Suitable for 90-degree wall layout and floor-to-ceiling point transfer

## Applications

- Setting out 90-degree walls
- Room partitioning
- Transferring points from floor to ceiling
- Plumbing layout work
- Constructing drywall frames
- Interior alignment and levelling

## What's Included

- PRO GPL 5 G point laser
- Protective pouch
- 2 x 1.5 V LR6 (AA) batteries
