GAS 12-25 PL Professional Wet/Dry Extractor

Short Description

Bosch Professional GAS 12-25 PL is an L-class wet/dry dust extractor with a 1,250 W motor, 25 L container, semi-automatic filter cleaning, HEPA filtration, and Click & Clean tool connectivity.

Technical Specifications

Brand	Bosch
Model	GAS 12-25 PL
Mfr part no.	060197C1L0
SKU	818516
Type	Wet/Dry Extractor
Article Number Family	3 601 J7C 1..
Hose Length	3 m
Hose Diameter	35 mm
Container Volume Gross	25 L
Container Volume Net	21 L
Container Volume Net Water	15 L
Dust Bag Volume Net	20 L
Filter Surface Area	2,300 cm ²
Airflow Rate Turbine	65 l/s
Maximum Flow Rate Dust Extractor	36 l/s
Vacuum Pressure Turbine	200 mbar
Maximum Vacuum Turbine	20 kPa
Maximum Vacuum Dust Extractor	19 kPa
Power	1,250 W rated input power; 1,250 W maximum input power
Voltage	230 V

Frequency	50–60 Hz
Weight	9 kg
Dust Class	L
Protection Rating	IPX4
Automatic Start Stop	Yes

Description

This corded wet and dry dust extractor is designed for professional workplace cleaning and dust extraction from compatible power tools. It provides turbine airflow and vacuum pressure, an integrated power socket for automatic start, and a Click & Clean interface.

Key Features

- H13 HEPA filter captures 99.95% of fine dust particles greater than 0.3 microns
- Semi-automatic filter cleaning system
- Large-surface pre-filter helps extend main filter life
- Integrated power socket with automatic start function
- Click & Clean interface for Bosch power tools
- Integrated blowing connection
- 25 L gross container capacity

Applications

- Wet and dry vacuuming
- Professional dust extraction
- Extraction from compatible Bosch power tools
- Workplace and workshop cleaning
- Blowing applications with a compatible hose
- Dust control for drilling, cutting, sanding, and related applications

What's Included

- 3 m hose, 35 mm diameter
- Antistatic pipe
- Crevice nozzle
- GAS 12-25 PL HEPA filter, part number 1619PB3282
- GAS 12-25 prefilter, part number 1619PB3283
