

Yato | Code YT-7366 | Sku 107366

SAFETY GLASSES

Overview

Protective goggles YT-7366 designed for eye protection in manual and mechanical work such as grinding, drilling, chiseling, etc. Optical class: 1 - highest quality field of vision, recommended for continuous work. Filter with sun glare protection: designation 5-3.1. Lens material: polycarbonate. Frame material: nylon. Nose pads. Adjustable angle and arm length. Small holes at the end of the arms, to which you can attach, for example, a string, so you can hang the goggles around your neck. The goggles have been certified for mechanical strength at the F level, that is, they can withstand the impact of a steel particle with a diameter of 6mm, weight of 0.86g and speed of 45m/s. They meet the requirements of the EN 166 standard.

Key Technical Specifications

Brand	Yato
Color	gray
Symbol	YT-7366
Type of	91659
Standard	EN 166:2001
Filter type	5-3.1
Optical class	1
Producer code	5906083973666
Material	nylon
Lenses material	P.C
Mechanical strength	F
Protection category	II

Key Points

- Optical class: 1 - highest quality field of vision, recommended for continuous work
- Filter with sun glare protection: designation 5-3.1
- Lens material: polycarbonate
- Frame material: nylon
- Nose pads
- Adjustable angle and arm length
- Small holes at the end of the arms, to which you can attach a string, so you can hang the goggles around your neck
- Certified for mechanical strength at F level, withstanding impact of a 6mm steel particle at 45m/s
