Yato | Code YT-36095 | Sku 1036095

HAND RIVETING TOOL

Overview

A powerful riveting machine with a large working range of 2.4 to 6.4 aluminum rivets. A special feature is the large range of handled rivets, achieved thanks to the appropriate thickness of the walls and the properly selected length of the arms. The rivet, which is inserted in the selected end of the riveter, is placed in the hole drilled in the materials, and the arms of the riveting machine are compressed with a smooth movement. The materials are permanently joined, and the broken pin goes into a container on the riveting machine. Length [mm]: 380. Usage warnings: Warning! Always use personal safety equipment at work.

Key Technical Specifications

Brand	Yato
Length	380 mm
Symbol	YT-36095
Application	steel rivets, stainless steel rivets, aluminum rivets
Jaw quantity	3
Set includes	riveter, rivets
Jaws material	CrMo
Producer code	5906083360954
Finish	hardened
Casing material	aluminum
Handle Material	carbon steel, PVC
Rivets diameter	2.4, 3.2, 4, 4.8, 6.4 mm
Blind rivet material	aluminum

Key Points

- Length: 380 mm
- Handles rivets from 2.4 to 6.4 mm diameter
- Jaws made of hardened CrMo steel
- Handle made of carbon steel and PVC
- Aluminum casing
- 3 jaws
- Set includes riveter and rivets
- Suitable for steel, stainless steel and aluminum rivets

Warnings

- Warning! Always use personal safety equipment at work.
