

Yato | Code YT-17001 | Sku 1017001

Hydraulic Bottle Jack 3T

Overview

Professional YATO brand hydraulic bottle jack, featuring a system of valves that precisely dose the oil flow. The lifting capacity of the jack is 3 tons, and the lifting range is from 194 mm to 374 mm. It is characterized by its small size and weight, which is important for moving and storage. Indispensable in automotive workshops and vehicle service stations.

Key Technical Specifications

Type	columnar
Brand	Yato
