Number Stamp Set 6 mm, 9 Pcs

Overview

Numerators made of 1045CS carbon steel, hardened to approximately 50–55 HRC. Quadruple stamps with a height of 66 mm and side 8 mm, each ending with a marking element — a digit 6 mm high. Marking is performed by placing the digit stamp against the material and striking the opposite end firmly with a hammer. The set is stored in a plastic container and includes the following digits: 0, 1, 2, 3, 4, 5, 6, 7, and 8. The digit 9 is obtained by inverting stamp number 6. Suitable for permanent, mechanical marking of metal parts or certain plastics.

Key Technical Specifications

Width	8 mm
Length	66 mm
Hardness	50–55 HRC
Material	1045 carbon steel
Application	Permanent mechanical marking of metal parts or certain plastics
Digit Height	6 mm
Set Includes	Digit stamps x9 (0, 1, 2, 3, 4, 5, 6, 7, 8)

Key Points

- Set of 9 number stamps (digits 0–8; digit 9 obtained by inverting stamp 6)
- Made from 1045CS carbon steel, hardened to 50–55 HRC
- Digit height: 6 mm; stamp length: 66 mm; stamp width: 8 mm
- Marking by hand impact with a hammer — no special equipment required
- Stored in a plastic container for organised storage
- Suitable for permanent mechanical marking of metal parts and some plastics
