

Yato | Code YT-6753 | Sku 106753

Caulking Gun 300 ml

Overview

The YT-6753 reinforced caulking gun delivers reliable performance when applying dense masses such as silicones, adhesives, sealants and greases from standard 300 ml cartridges. Its reinforced construction with double piston guidance maximises pressure force while keeping effort to a minimum. The lightweight painted steel body and ergonomic aluminium handle ensure comfortable, secure use even in low temperatures. Ideal for demanding renovation and finishing work.

Key Technical Specifications

Type	Gutter, reinforced construction
Application	Dense masses, adhesives, silicones, sealants, renovation and finishing work
Tool length	225 mm
Body material	Steel sheet
Tube diameter	49 mm
Handle material	Aluminium
Cartridge capacity	300 ml

Key Points

- Compatible with standard 300 ml cartridges (tube diameter 49 mm)
- Reinforced construction with double piston guidance for increased pressure force
- Effortless extrusion of dense masses, including highly adhesive substances
- Lightweight painted steel body — tool length 225 mm
- Ergonomic aluminium handle for comfortable and secure grip
- Suitable for silicones, adhesives, sealants, greases, and renovation work
- Reliable performance in low temperatures, preventing tool damage

Warnings

- Always use personal protective equipment (PPE) when working with this tool.
