Yato Insulated Flat Nose Pliers 200mm VDE

Key Technical Specifications

Length	200 mm
Material	Chrome-Vanadium (CrV) steel
Maximum Voltage	1000 V AC
VDE Certified	Yes
Standard	EN 60900
Application	Electrical

Applications

- Live electrical installations and equipment up to 1000 V
- Working with plastics without scratching
- Handling non-ferrous metals: copper, brass, aluminium

Features

- Fully insulated flat nose design
- Non-slip grip for secure handling
- Protects against scratching soft materials

Safety

- Insulation protects against electric shock up to 1000 V AC
- Tested in German VDE accredited laboratory
- Meets EN 60900 requirements
- Verify tool condition before use on live installations
- Do not use if insulation is damaged
