

Yato | Code YT-21844 | Sku 1021844

Pipe Bender 15mm

Overview

The YATO YT-21844 pipe bender guarantees bending pipes up to 180° without crushing or deformation. Features an embossed protractor on the body for precise angle determination. The sturdy aluminum body ensures durability and lightness, while durable steel arms provide long-term reliability. A special lock allows secure fastening and bending of even short pipe sections. The comfortable handle ensures ease of use during prolonged operation. Suitable for soft copper, aluminum, soft steel, and brass pipes.

Key Technical Specifications

Material	Aluminum
Application	Copper pipes, aluminum pipes, mild steel pipes, brass pipes
Pipe Diameter	9/32" (15 mm)
Max. Operating Angle	180°

Key Points

- Bends pipes up to 180° without crushing or deformation
- Embossed protractor on the body for precise angle determination
- Sturdy aluminum body for durability and lightweight handling
- Durable steel arms for long-term reliable use
- Special lock for secure fastening and bending of short pipe sections
- Comfortable handle for ease of use during prolonged operation
- Compatible with soft copper, aluminum, soft steel, and brass pipes
- Supported pipe diameter: 15 mm (9/32")

Warnings

- Always use personal protective equipment when working with this tool.
