

Yato | Code YT-08901 | Sku 1008901

**Hermetic Toolbox 270×246×124 mm**

**Overview**

The YT-08901 hermetic case is the perfect solution for transporting delicate tools and equipment. It protects contents from water, dust, and shocks at all times. The case is waterproof and dustproof to IP55 resistance class, resistant to many chemicals and corrosion, and made of durable, flexible polypropylene. It features a decompression valve for safe air transport, the option to secure contents with an additional lock, and a pre-cut foam interior for precise fitting of items. Ideal for storing tools, photographic equipment, and measuring instruments, and excellent for use in sailing or off-road motorsports.

**Key Technical Specifications**

|                     |                |
|---------------------|----------------|
| Grip                | Yes            |
| Handle              | No             |
| Wheels              | No             |
| Material            | PP             |
| Shockproof          | Yes            |
| Foam insert         | Yes            |
| Cover height        | 30 mm          |
| Wall thickness      | 10 mm          |
| Protection grade    | IP55           |
| Decompression valve | Yes            |
| External dimensions | 270×246×124 mm |
| Internal dimensions | 235×181×105 mm |

## Key Points

- Waterproof and dustproof – meets IP55 protection class
- Resistant to many chemicals and corrosion
- Made of durable and flexible polypropylene (PP)
- Equipped with a decompression valve for safe air transport
- Pre-cut foam insert for precise, self-modeling fit
- Can be secured with an additional lock
- External dimensions: 270×246×124 mm; internal dimensions: 235×181×105 mm
- Wall thickness: ~10 mm; cover height: 30 mm
- Shockproof with integrated grip handle
- Suitable for tools, photographic equipment, measuring instruments, sailing, and off-road motorsports
