Hermetic Toolbox 430×244×341 mm

Overview

Hermetic, waterproof and dustproof case resistant to many chemicals and corrosion. Made of flexible polypropylene to IP55 protection class. Features an effective sealing system with a decompression valve for pressure equalisation during air transport. Adapted for padlock securing. The interior is filled with a pre-cut foam insert ready for self-modelling recesses tailored to specific items such as tools, photographic equipment or measuring instruments. Excellent for use as a leak-proof and damage-resistant transport container, e.g. in sailing or off-road motorsports. Dimensions stated are total external dimensions. Wall thickness approximately 10 mm.

Key Technical Specifications

Grip	Yes
Handle	No
Wheels	No
Material	PP
Shockproof	Yes
Waterproof	Yes
Foam insert	Yes
Cover height	51 mm
Wall thickness	10 mm
Protection grade	IP55
Decompression valve	Yes
External dimensions	430×244×341 mm
Internal dimensions	344×146×297 mm

Key Points

- IP55-rated waterproof and dustproof protection
- Chemical- and corrosion-resistant flexible polypropylene construction
- Decompression valve for safe air transport pressure equalisation
- Pre-cut foam insert for custom product-shaped recesses
- Padlock-compatible locking points
- Shockproof construction suitable for sailing and off-road motorsports
- External dimensions: 430×244×341 mm; internal dimensions: 344×146×297 mm
- Wall thickness: approx. 10 mm
