Double Spiral Mixer

Overview

Double spiral mixer used for mixing adhesive mortars, masonry mortars, screed, structural plasters, putty masses and insulating masses. Compatible with mixers or drills. Made of galvanized steel with an SDS Plus shank. The special agitator profile ensures quick and thorough mixing of the blended material. Suitable for renovation and construction works.

Key Technical Specifications

Length	600 mm
Diameter	120 mm
Material	Steel
Application	Adhesive mortars, masonry mortars, screed, structural plasters, putties, insulating masses
Finish	Galvanized
Tool holder type	SDS-Plus
Max. mixing capacity	15–25 kg

Key Points

- For mixing adhesive mortars, masonry mortars, screed, structural plasters, putties, and insulating masses
- Compatible with mixers and drills
- Made of galvanized steel for durability and corrosion resistance
- SDS Plus shank for secure tool attachment
- Special agitator profile ensures quick and thorough mixing
- 120 mm diameter, 600 mm length
- Maximum mixing capacity: 15–25 kg
- Suitable for renovation and construction applications

Warnings

- Use of hand tools may be dangerous — always use personal protective equipment at work.
- Use only proper, undamaged tools.
- Select the type and size of tool according to the intended application.
- Do not overload tools.
- Keep tools away from children.
- Use tools with proper care.
