# PVC Tray with 14-Piece Deep Socket Set 8–21 mm

## Overview

Professional drawer insert YT-5539 containing 14 sizes of long hexagonal sockets with 1/2" drive. Designed for tool cabinets to ensure order and quick access to tools. Sockets are made from high-quality CrV 50BV30 steel with chrome, satin, and polished surface finish for corrosion protection and ease of cleaning. Features the AS-DRIVE system to minimise wear on fastener edges and sockets, drive locks to keep sockets in place during transport, and increased hardness of 43–47 HRC for resistance to deformation and wear. Long socket design allows access to deeply recessed fasteners. Compliant with DIN 3121 standard.

## Key Technical Specifications

|                   |                                                                                                                                           |
|-------------------|-------------------------------------------------------------------------------------------------------------------------------------------|

| Surface Finish    | chrome plated, satin, polished                                                                                                            |
| AS-DRIVE System   | yes                                                                                                                                       |
| Number of Pieces  | 14                                                                                                                                        |
| Insert Dimensions | 385 × 175 × 41 mm                                                                                                                         |

## Key Points

- Complete set of 14 long hexagonal sockets with 1/2" (12.7 mm) drive, sizes 8–21 mm
- Made from high-quality CrV 50BV30 steel for long-lasting durability
- Hardness of 43–47 HRC for resistance to deformation and wear
- Chrome, satin, and polished surface finish for corrosion protection and easy cleaning
- AS-DRIVE system minimises wear on fastener edges and sockets
- Drive locks keep sockets securely in place, even during transport
- Long socket design provides access to deeply recessed fasteners
- Compliant with DIN 3121 standard
- Insert dimensions: 385 × 175 × 41 mm — fits standard tool cabinet drawers

## Warnings

- Use of hand tools may be dangerous! Always use personal protective equipment at work.
- Use only proper, undamaged tools.
- Select the type and size of tool according to the intended application.
- Do not overload tools.
- Keep tools away from children.
- Use tools with proper care.
